

Welcome to the 2018 Tennessee State Fair

FROM THE CHAIRMAN

For more than 160 years the Tennessee State Fair has been one of the greatest and most thrilling traditions in the state. We are proud to present the 2018 theme: "The Heart of Tennessee." As we continue the grand traditions of the Fair, we invite visitors and citizens alike to take part in the Fair and truly make it their own.

We are excited to continue the longstanding traditions held in competitions throughout the agriculture and creative arts departments. From quilting and baking to growing the state's largest pumpkin, there is room for everyone to participate.

For the second year in a row, we will be bringing back the Music City Monster Mayhem monster truck show featuring Bigfoot and Snake Bite for what is sure to be the show of the season! Also, back again this year is the Butterfly Experience. Last year, over 15,000 visitors of the Fair interacted with live butterflies and learned of their growth stages and native habitats here in the Volunteer State.

Most importantly, we be celebrating the real Heart of Tennessee...the people. From volunteers to exhibitors, the people are what makes the Tennessee State Fair so great. It is our honor to showcase the talents and accomplishments of the citizens of Tennessee.

On behalf of the Tennessee State Fair Association and all our volunteers, I welcome you and hope you enjoy The Heart of Tennessee!

John W. Rose
